About this site

In knowledge society **theories of learning and teaching** are **the very foundations** of all activities. The **wealth** of scientific work and results in this field during 20th century **is far from being used**, even **far from being known** to all who practice teaching.

Our **ultimate goal** is **bettering learning** and teaching in practice.

Therefore, **we continuously seek** to find a comprehensive yet intuitive, logical and easy to use **overview of learning (and teaching) theories**. This overview is to serve our own research and educational practice as well as to be an easy to use tool for other practitioners. In this process we decided to share our findings with others. These pages are the result. Below you can find other similar resources we found to be useful.

If you would like to contribute to these pages **or collaborate** with us in a broader sense, **we would like to hear** from you.

Please do not hesitate to send us your comments, suggestions or critique.

Zašto su ove stranice na engleskom jeziku?

Content

If **you are new** to the field, we suggest that you go to "Learning paradigms and theories" where you will find overview that can be easily comprehended and followed.

If you are **looking for something** specific, you might want to use the ***search box*** (right top corner of this page) or the ***site map*** (bottom right corner of this page).

If **you are wondering** how can all this be of use in educational practice, we compiled our list of conclusions under "IMPLICATIONS".

Our contribution to your study of the field	→	What is learning	**Learning paradigms and theories**	IMPLICATIONS
The "players" in the field you can learn from	→	Researchers	Institutions	Projects
Relevant sources of information	→	Web Pages	Journals & Magazines	Conferences
Useful while researching or implementing	→	Tools	Glossary	Bibliography

Other resources

Other, more or less similar in intention, resources we identified and found usefull for our work so far are:

1. Explorations in Learning & Instruction: The Theory Into Practice Database - Dr. Greg Kearsley
2. Instructional Design Theory Database Project

3. Learning-Theories.com
4. Theories of Learning in Educational Psychology - Sunny Cooper
5. Queen's University Centre for Teaching and Learning
6. Learning Theories and Higher Education - Dublin Institute of Technology
7. IDKB - Instructional Desgin Knowledge Base - Nada Dabbagh, George Mason University
8. Learning Theories and Instruction - Meredith Alvin
9. OCSLD: Theories of Learning - Oxford Centre for Staff and Learning Development
10. Online Learning Laboratory - University of South Alabama

Researchers

Currently these pages are being developed by Branko Jeren, Predrag Pale and Juraj Petrović at Laboratory for Systems and Signals of Department for Electronic Systems and Signal Processing at the Faculty of Electrical Engineering and Computing of Zagreb University.

Collaborators are welcome.

A note

The **text** in these pages **is written by us**. However, it is very hard to avoid wordings, constructs or even whole sentences which are consistently repeated in literature, or are perfectly phrased by some other author. Whereever practical, we took care to **include references** to other authors. **If we failed** to do so in a place or two, it was not by intention to appropriate someones intellectual property, and **please do** draw our attention to this fact.

We systematically check the content of these pages with anti-plagiarism tools like: Plagium

Copyright notice

Material in these pages is intended for **free, public use**. It can be copied, printed, cited and linked **without explicit permission** of the authors for personal use or further education provided it is for non-profit purpose. It is expected to **credit the authors** if portions of text are used elsewhere.

Any commercial or **for-profit us**e is only possible with **prior, written permission** from authors.
